

Improve your home. Get rebates. Save money.

Homeowner Fact Sheet

Los Angeles County homeowners can save money through energy efficient upgrades to their homes

Los Angeles County homeowners who complete qualifying energy-saving home upgrade projects are now eligible to receive financial rebates and incentives of up to \$4,500, in addition to monthly energy costs savings, from the Energy Upgrade™ California Program in Los Angeles County. The program is a one-stop resource for homeowners to:

-  Learn more about energy efficiency and the benefits of home upgrades
-  Determine available financing and rebate options
-  Find qualified contractors to perform energy efficiency assessments and upgrades

Upgrades eligible for Energy Upgrade California in Los Angeles County incentives include insulation, air and duct sealing, low flow control devices, combustion safety testing, HVAC upgrades, energy-efficient windows, cool roof, tankless water heaters and other “fixed” improvements. A complete list of eligible upgrades can be found on the Energy Upgrade California Los Angeles website www.EnergyUpgradeCA.org.

Benefits to Participating:

-  Receive up to \$4,500 in rebates and incentives
-  Save money on monthly energy costs
-  Increase home comfort and protect your family from temperature extremes
-  Improve indoor air quality
-  Increase property value
-  Help the environment by reducing dependence on fossil fuels

Get Started:

1. Visit www.EnergyUpgradeCA.org
2. Request a home energy assessment from a participating contractor
3. Work with the contractor to determine the energy efficiency improvements that make the most sense for your home
4. The contractor's team completes the designated improvements and files the rebate paperwork
5. Enjoy your energy-efficient home and start saving money on monthly energy costs
